

## Craftsmanship

Skilled and experienced craftsmen apply finishes and patinas to highest standards. Variations in colors, texture is an inherent characteristic on certain finishes. Such finishes once installed lead to wear, oxidation with time, use and environment. This variation lends more character and bring an elegance to piece of hardware.

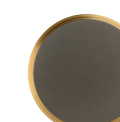

Certain finishes are lacquered to help preserve original finish, we recommend to not select such finishes for use in high traffic areas, this can tear apart lacquer film and it will result in patchy appearance.

## ALHAMBRA CUP PULL

“The architecture of the Alhambra palace is drawn from a mix of cultures and decorative elements, Moorish poets described it as a pearl set in emeralds. Our Alhambra suite is inspired by the columns in the palace, characterised by their elegance rather than grandeur.”

## ODEL CUP PULL

“While knurled patterns have proved popular on our Jazz and Harlequin suites architects and interior designers challenged us to make a more masculine look and feel. The result of which we are justifiably proud is the Odel suite of square knobs, rectangular cup pulls and handles, the stepped detail allied to a high degree of precision and skill has created a tactile product with stunning contrasts and definition.”
